

4

- **Map:**
Neat, drawn to scale, accurately represents downtown area, **all** street, parking, sidewalk and building codes are followed.
- **Survey:**
Designed, carried out and explained **well**. Survey results impacted map choices.
- **Written defense:**
Makes sense, includes **specific details** relating to survey results, editorial reviews and environmental considerations.
- **Oral Presentation:**
Gives a clear explanation about research conducted and plans for the project, presentation is understandable and well organized, questions are answered accurately.

3

- **Map:**
Neat, drawn to scale, accurately represents downtown area, **most** street, parking, sidewalk and building codes are followed.
- **Survey:**
Designed, carried out and explained. Survey results impacted **most** map choices.
- **Written defense:**
Makes sense, includes **some specific details** relating to survey results, editorial reviews and environmental considerations.
- **Oral Presentation:**
Gives a clear explanation about research conducted and plan for the project, presentation is understandable and well organized, **most** questions are answered accurately

2

- **Map:**
Is drawn to scale, attempted to represent downtown area accurately, **some** street, parking, sidewalk and building codes are followed.
- **Survey:**
Designed, carried out and **somewhat** explained. Survey results impacted **some** map choices.
- **Written defense:**
Partially makes sense but **lacks** clear and **specific details** relating to survey results, editorial reviews and environmental considerations that support choices.
- **Oral Presentation:**
Gives a **somewhat clear explanation** about research conducted and plans for the project; presentation is somewhat understandable but lacks organization, most questions are answered accurately.

1

- **Map:**
Is **not** drawn to scale, downtown area is not represented accurately; **few** street, parking, sidewalk and building codes are followed.
- **Survey:**
Designed and carried out but **lacks explanation**.
- **Written defense:**
Specific details relating to survey results, editorial reviews and environmental considerations that support choices are **missing**.
- **Oral Presentation:**
Gives **very little explanation** about research conducted and plans for the project; **lacks organization and clarity**; few questions are addressed or answered accurately.
